**Subject:** RE: WY RH FR notice - let us know when modeling section is ready for ORC review

As we talked about yesterday, I responded to the “problematic” comments on multiple units and cumulative visibility. Gail – Can you please go back through the section as I think there are still ones that you need to respond to or coord. with Aaron to see what he thinks after he works on that section today. Thanks

My response to modeling comments was essentially complete two weeks ago, and I’ve been offering since then to meet with ORC to discuss some of the more problematic comments to which I can’t respond. How about if Aaron, Laurel and I get together today to discuss possible responses to remaining comments, and flag those where we specifically need ORC input?

Thanks,

Gail

**Subject:** WY RH FR notice - let us know when modeling section is ready for ORC review

Hi All

At this point our office has reviewed all the sections of the FR notice, with the exception of the modeling section.

Please let Steve and I know when the modeling section is ready for us to review, and depending on our schedules, one of us will review. I just checked it a few minutes ago, and note that it does not appear complete.

We will certainly do what we can to meet the 12/4 deadline for all the sections to go to regional management/OAQPS/OGC for review, however, since we haven't yet reviewed that section, it's a challenge to commit to that deadline.

Thanks,

**Sara L. Laumann**
